ALPHA

Instant Water Heater

X5 series

MULTIPOINT SYSTEM

Now you enjoy warm water anytime at every tap of your home. Since more than one outlet point (tap connection) can be connected to this system, it allows you to use the same heater for showering, washing, cooking, etc. There is not only a cost saving of getting another heater but also fixing the expensive Hot & Cold Mixer Valve which is not necessary in this system.

The minimalist design of ALPHA X5 Series is inspired by a sense of timeless elegance and style. It is also born out of an international design sensibility that is meant to reflect your own refined tastes in modern interior décor and architecture. Beyond its design, you will find an amazing level of performance that is making every shower a blissful and rejuvenating shower experience.

3 Models Available:

- X5 : Single Point Heater
- X5E : Single Point Heater
- X5EM : Multi Point Heater

TECHNICAL SPECIFICATION

Heater Rating	3.0 to 8.0kW, 220 - 240V~ 50Hz
